# Gymtobia Management System

**Presented by:**

**Ahmed Hosam  
Ahmed Ramadan**

**"The body  
achieves what  
the mind  
believes."**

# **The Main Objective**

**The main purpose of this project is to build a Gym management system that can manage the members' information, reservations for classes and events, and also employees' personal information.**

# The Target Audience

**This prototype would be useful to Gym managers as it will provide them with a well-organized information about their clients and also their employees.**

**Also, trainers can update the workout plan for their clients, in addition to managing their classes.**

# User class and Characteristics

Throughout this interface , users can do the following :

- ☒ Manage employees' information.
- ☒ Add/Remove members.

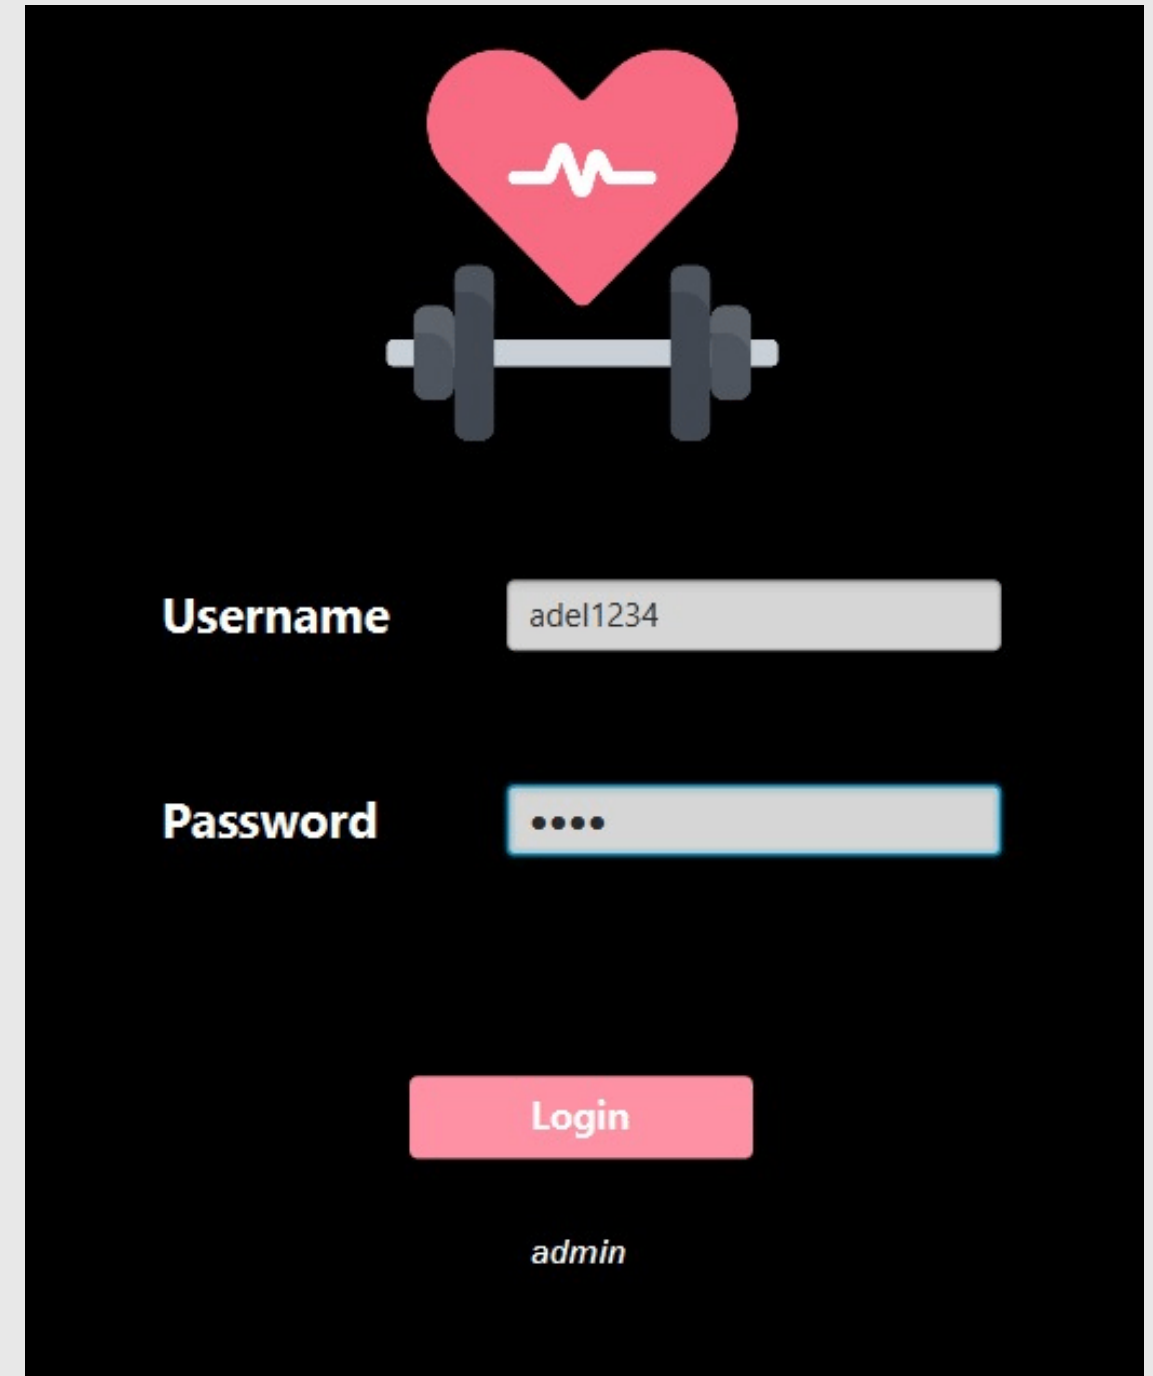

- ☒ Set/Update the diet plan for every member.
- ☒ Schedule different sessions and classes for members and Trainers.

# Interface Forms

**Loading Form**

The image shows a login screen for the "GYMTOPIA" application. At the top is a pink heart with a white heartbeat line, and below it is a grey dumbbell icon. Below these icons are two input fields. The first is labeled "Username" and contains the text "adel1234". The second is labeled "Password" and contains four dots. Below the password field is a pink button labeled "Login". At the bottom of the screen, the word "admin" is written in a small, italicized font.
